Other Specifications

Click-thru URL Length³ 450 characters, max

Examples

MSN Outstream Video (In-Article)

The screenshot shows a webpage from MSN Finans. The main article text discusses the financial situation of the agricultural sector, mentioning a negative liquidity trend since 2011 and a projected loss of 37 billion kroner from 2011 to 2017. A video advertisement is embedded in the article, showing a person holding a tablet displaying a news article. Below the video, there is a caption in Danish: '- Det kommer til at tage lang tid, før gælden er nedbragt og landbruget er tilbage i god gænge. Gæld opbygges over lang tid og nedbringes over lang tid. Så vi taler en del år, før gælden er nedbragt til et mere overkommeligt leje, siger Klaus Kaiser.' Below this, another paragraph states: 'En høj gæld og lang tids finansielt pres er problematisk i og med, at det oftest sætter en stopper for de investeringer, der forbedrer produktiviteten og fastholder selskabers konkurrenceevne.' To the right of the main article, there is a sidebar with various news items, including 'Tom K. advarer Magnussen' and 'Ny kropstendens vinder frem'. At the bottom right, there is a section titled 'Highlights fra Spa-Franchorchamps' with a sub-headline 'Der var masser af drama igennem løbet og det endte også med en'.

Policies and guidelines

Creative Acceptance Policy

All creative must meet the requirements of the MSA [Creative Acceptance Policy](#)

Privacy Policy

Video advertisements played on all Microsoft properties and partner properties will comply with the [Microsoft Advertising Privacy Policy](#)
